[Developmentally appropriate practice and play-based ...](#)

The term "developmentally appropriate" refers to the practice of making a curriculum based on what students are able to do cognitively, physically and emotionally at a certain age. Of course, not all children develop at the same rate, so often there's a range of abilities that are considered developmentally appropriate for each age. For instance, kindergartners should be able to skip, walk ...

A common way to organize a preschool curriculum is by thematic units. Units are larger topics that can be explored for weeks at a time and through many subject areas. Once you have your units, you can begin to add appropriate, standards-based activities. Possible unit topics include animals, community, plants, or family.
